Education

- Indian Institute Of Information Technology, Jabalpur** **Jabalpur, India**
Bachelor of Technology in Computer Science and Engineering *August 2023 - May 2027*

Professional Experience

- Software Development Engineer Intern** **Orkait**
Backend & Cloud Infrastructure - Golang *January 2026 - March 2026*
 - Engineered high-performance backend systems in Golang using scalable architecture and concurrency primitives (goroutines, channels)
 - Architected and deployed end-to-end CI/CD pipelines on AWS with auto-scaling infrastructure for reliable production releases
 - Designed distributed services with focus on fault tolerance, system efficiency, and modular architecture
 - Collaborated on frontend development to deliver cohesive full-stack features and improved user experience
- Freelance Full-Stack Developer** **Upwork**
Remote - International Clients *January 2025 - December 2025*
 - Successfully delivered 2 enterprise-grade applications achieving 5-star ratings; engineered AI-powered Google Ads platform reducing manual workflows by 60% through intelligent automation
 - Architected multi-language CMS supporting 5+ languages using Next.js, Prisma ORM, and PostgreSQL, managing complete SDLC from requirements through deployment

Technical Skills

- Programming Languages:** Dart, Go, Python, C++, Java, TypeScript, JavaScript, C, SQL, Bash
- Frameworks & Libraries:** Flutter, React.js, Next.js, Node.js, Express.js, Django, Django REST Framework
- Testing & Quality Assurance:** Postman, REST API Testing, Unit Testing, Manual Testing, Debug Testing
- DevOps & CI/CD:** Git, GitHub Actions, Jenkins, Docker, Kubernetes, Terraform, Ansible, Maven
- Cloud & Infrastructure:** AWS (EC2, S3, Lambda, CloudWatch, ECS), Google Cloud Platform, Microsoft Azure
- Databases & Monitoring:** PostgreSQL, MySQL, MongoDB, Redis, Prometheus, Grafana

Key Projects

- Juris-Lead - IPC Justice Aid** **GitHub — Live Demo**
Next.js — Flutter — Django REST API — Ollama AI *Legal-Tech Platform*
 - Architected AI-powered legal analysis platform delivering IPC case consultations with custom fine-tuned Ollama model achieving 92% accuracy across 500+ case classifications
 - Engineered full-stack solution with Django REST backend, Flutter mobile app, and Next.js frontend using Docker containerization for PostgreSQL, Redis, and AI services
 - Developed 25+ REST API endpoints with Google OAuth authentication, OCR document processing, and automated lawyer lead generation system
- AarogyaRekha - AI Healthcare System** **GitHub Repository**
Flutter — Django — TensorFlow — Satellite APIs *Preventive Healthcare*
 - Engineered AI-driven disease outbreak prediction system integrating satellite data from MODIS, Sentinel-2, and ISRO Bhuvan with real-time environmental monitoring
 - Developed cross-platform mobile application with custom TensorFlow models achieving 89% prediction accuracy for malaria and dengue outbreak forecasting
 - Integrated OCR document processing, satellite imagery analysis, and weather API data aggregation for comprehensive health risk assessment

Certifications

- Introduction to DevOps Professional Certificate** **IBM via Coursera**
Credential: 8YEE0VZCACVY *March 2025*

Achievements

- Hackathon Excellence:** Secured 1st place at BitByBit Hackathon, IIT Roorkee; achieved Top 10 rank at Hack4Health among 400+ teams, competed in HackByte 3.0 and HACKJMI Hackathons
- Competitive Programming:** Solved 350+ DSA problems across LeetCode (250+) and CodeChef (20+)
